

Words of Fortune Terminal App

Tracey Tran

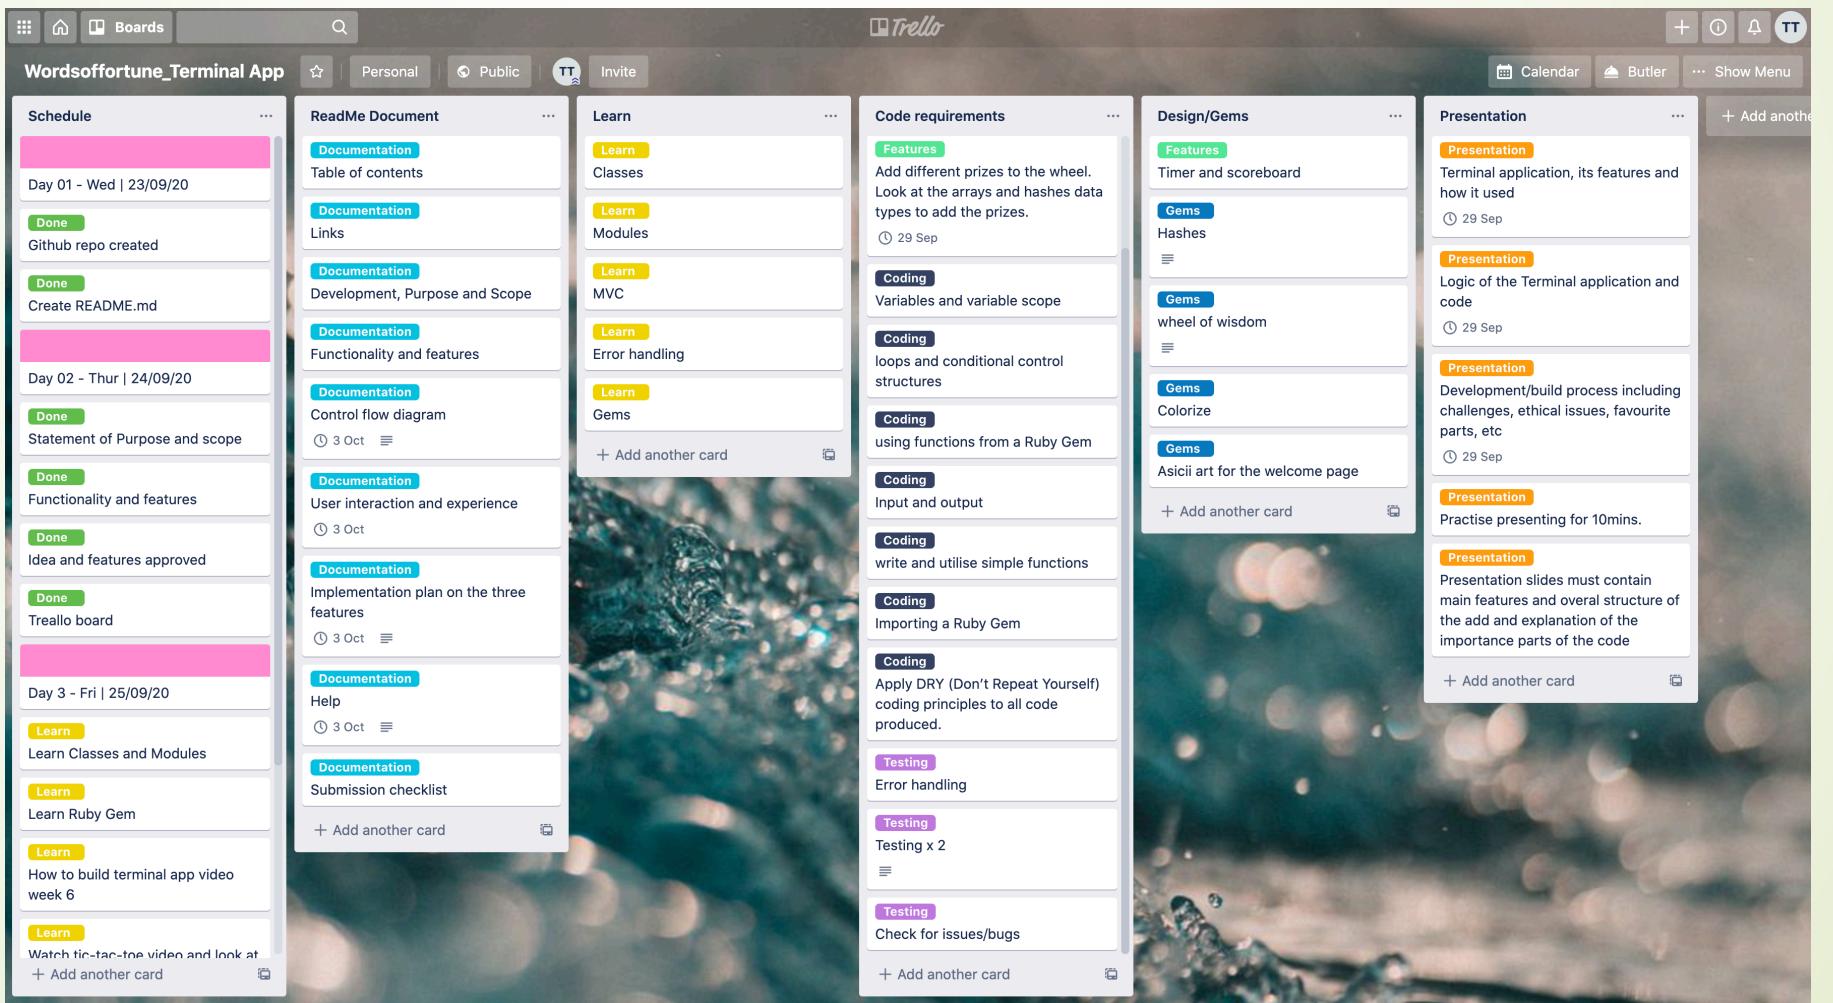

About

- A fun word-puzzle game
 - Inspired by TV show Wheel of Fortune and Hangman game
 - Purpose to provide a fun way of learning vocabulary and testing your general knowledge

Planning

- Trello board
- Schedule for each day and three main components broken down into bite-size tasks

Features

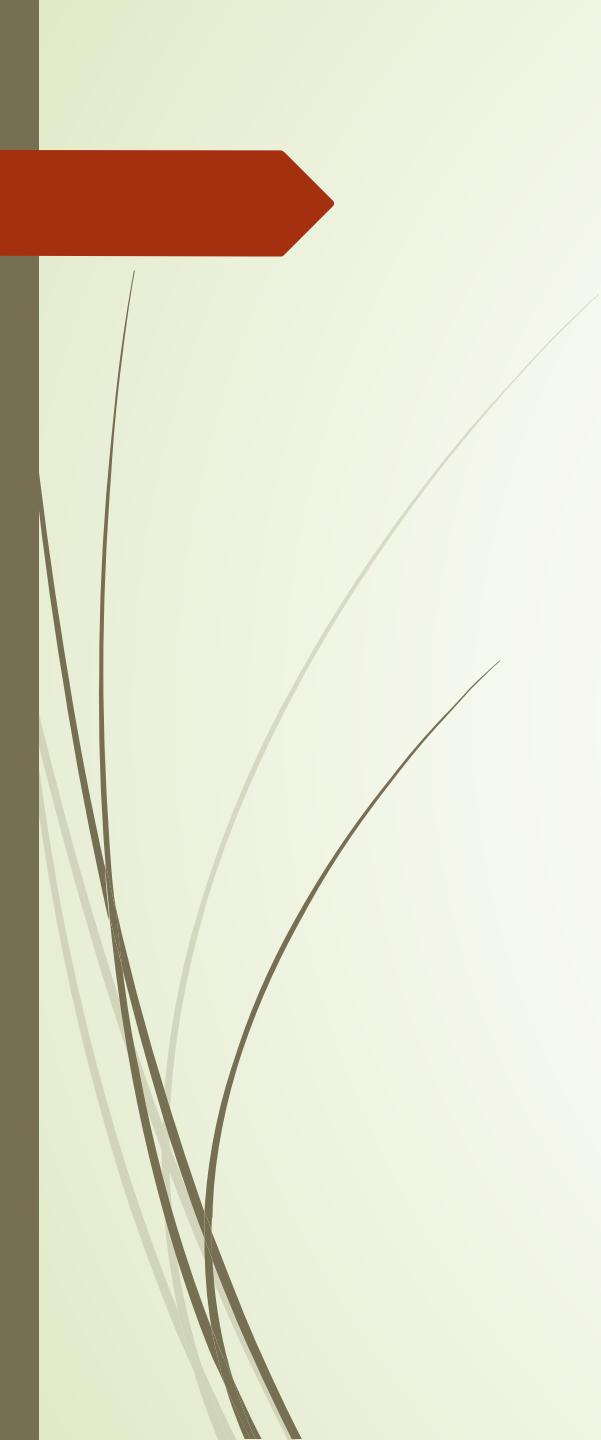

- Fun exciting word puzzle - User will see the result of each input they enter into the command.
- Spin the wheel - To generate a random prize money
- Scoreboard – Displays the top leaderboard
- Timer during the game - Add a bit of suspense

Challenges

- Not starting with MVC and refactoring
- One file with multiple modules and classes
- Unable to create the spinning wheel animation
- Testing

Favourite Parts

- Overall aesthetic of the app and user flow
- Creating an alternative for spinning wheel
- Word game puzzle logic

Demo time!
